Patient's Name _____ Tooth # _____

Appointment Date _____ Time _____

Welcome... Your dentist has referred you to an endodontist. Endodontists are dental specialists who have additional education and training in root canal therapy and other procedures involving the tooth pulp and root structures.

As endodontists, we are trained to treat complicated cases, traumatic injuries, and can usually save teeth which might otherwise be lost.

Payment in full is expected at the time of your visit and for your convenience, cash, debit cards, credit cards and cheques are accepted. As a service to you we will be happy to complete any insurance forms required when treatment has been completed.
